MercadoLibre, Inc. Reports Second Quarter 2018 Financial Results

85.4 million Items Sold, up 38.8%,

85.5 million Total Payment Transactions, up 64.0%

Net Revenues of \$335.4 million, up 43.7% on an FX neutral basis

BUENOS AIRES, Argentina, Aug. 08, 2018 (GLOBE NEWSWIRE) – MercadoLibre, Inc. (Nasdaq: MELI) (<http://www.mercadolibre.com>), Latin America's leading e-commerce technology company, today reported financial results for the quarter ended June 30, 2018.

Pedro Arnt, Chief Financial Officer of MercadoLibre, Inc., commented, “The outlook for our industry is as positive as ever, and our investment thesis remains intact. The internet is rapidly becoming a driving force that is increasing the pace of modernization in Latin America. This modernization presents us with the opportunity to turn a history of underdeveloped infrastructure in the areas of retail and banking from a disadvantage into an advantage, as it allows for innovation to flourish unencumbered by existing legacy players.”

Second Quarter 2018 Business Highlights

- Gross merchandise volume again surpassed \$3 billion, reaching \$3.1 billion, a 15.2% year-over-year increase in USD, and a 35.9% year-over-year increase on an FX neutral basis, representing the fifth consecutive quarter of growth.
- Items sold increased for the second consecutive quarter to 85.4 million, a 38.8% year-over-year increase, delivering solid growth.
- Unique buyers grew 16.0% year-over-year versus 28.0% in the first quarter. This declining growth rate is attributable primarily to the price increases from our major postal partner, and the May truckers strike that lasted ten days and had a negative impact on e-commerce in Brazil. This deceleration in unique buyers growth in Brazil was partially offset by unique buyer growth rates in Mexico, Colombia, Chile and Argentina, where growth rates in unique buyers exceeded 20%.
- Live listings offered on Mercado Libre’s marketplace grew to 154.8 million in the second quarter of 2018, a 56.4% year-over-year increase, surpassing for the first time ever the 150 million mark.
- We continue to transition to being a mobile first company, as mobile gross merchandise volume “GMV” penetration grew 28.1% year-over-year reaching 55.5% mobile penetration.
- Items shipped through MercadoEnvíos reached 52.8 million, a 58.1% year-over-year increase, driven primarily by increasing our free shipping options, strong marketing of our loyalty program and customer acquisition initiatives. Items shipped in Argentina, Mexico, Chile and Colombia were highlights of the quarter, growing 73%, 135%, 440%, and 166% respectively year-over-year.
- Total payment volume through MercadoPago reached \$4.4 billion, a year-over-year increase of 40.4% in USD and 66.3% on an FX neutral basis. Total payment transactions increased 64.1% year-over-year, totaling 85.5 million for the quarter.
- We continue to successfully execute off-platform payments efforts (both online and offline) through merchant services, mPos, and mobile wallet businesses. On a consolidated basis, off-platform total payment volume grew 96.7% year-over-year in USD and 142.4% on an FX neutral basis.
- Our mobile-point-of-sale business quickly becoming one of our fastest growing non-marketplace business units, representing 43.3% of total off-platform payment volume for the quarter.

Adoption of ASC 606

- Effective January 1, 2018, the Company adopted ASC 606, Revenue from Contracts with Customers related to revenue recognition (“ASC 606”) issued by the Financial Accounting Standards Board (“FASB”). The Company has adopted ASC 606 using the full retrospective transition method and has accordingly revised its consolidated financial statements for the year ended December 31, 2017, and applicable interim periods within the year ended December 31, 2017, as if ASC 606 had been effective for those periods. Because the Company did not offer free shipping in 2016, net revenue for that year does not need to be recast.
- As a result of adopting ASC 606, the Company must present net revenue net of amounts paid in connection with the Company’s free shipping initiative rather than including these amounts in the cost of net sales, as previously recorded. For the three-month period ended June 30, 2018 the Company incurred \$97 million of shipping subsidies that have been netted from revenues.
- As a result of adopting ASC 606, our net revenues for the periods indicated below have been recast as presented below. Our adoption of 606 does not affect our operating or net income/loss.

Second Quarter 2018 Financial Highlights

- Net revenues for the second quarter grew to \$335.4 million, a year-over-year increase of 18.1% in USD and 43.7% on an FX neutral basis.
- Enhanced marketplace revenues decreased 13.2% year-over-year in USD, and 0.4% on an FX neutral basis, while non-marketplace revenues increased 72.5% year-over-year in USD and 107.5% on an FX neutral basis.
- Gross profit was \$159.7 million with a margin of 47.6%, compared to 60.4% in the second quarter of 2017. Most of the gross margin compression is attributed to an increase in free shipping subsidies.
- Total operating expenses were \$188.0 million, up 32.8% year-over-year. As a percentage of revenues, operating expenses were 56.1%, as compared to 49.9% during the second quarter of 2017.
- Loss from operations was \$28.2 million, down 194.1% year-over-year. As a percentage of revenues, loss from operations was 8.4%, as compared to a gain of 10.6% during the second quarter of 2017.
- Interest income was \$9.9 million, a 7.0% decrease year-over-year as a result of lower interest rates in Brazil as well as a lower float in Brazil and Argentina.
- The company incurred \$13.2 million in financial expenses in the second quarter of 2018 mostly related to working capital funding for the payments businesses and to interest accrual on our convertible bond issued in 2014.
- Net loss before taxes was \$19.0 million, down 252.6% year-over-year.
- Income tax gain was \$7.7 million during the second quarter, yielding a blended tax rate for the period of 40.6%.
- Net loss as reported for the second quarter was \$11.3 million, resulting in basic net loss per share of \$0.25.
- Operating cash flow was \$144.2 million. Net decrease in cash, restricted cash and cash equivalents was \$173.6 million in during the second quarter of 2018.

Definition of Selected Operational Metrics

Gross Billings - Total accrued fees, commissions, interest, and other sales received from users

Foreign Exchange ("FX") Neutral - Calculated by using the average monthly exchange rate of each month of 2017 and applying it to the corresponding months in the current year, so as to calculate what the results would have been had exchange rates remained constant. Intercompany allocations are excluded from this calculation. These calculations do not include any other macroeconomic effect such as local currency inflation effects or any price adjustment to compensate local currency inflation or devaluations.

Gross merchandise volume - Measure of the total U.S. dollar sum of all transactions completed through the Mercado Libre Marketplace, excluding motor vehicles, vessels, aircraft, real estate, and services.

Total payment transactions – Measure of the number of all transactions paid for using MercadoPago.

Total volume of payments on marketplace - Measure of the total U.S. dollar sum of all marketplace transactions paid for using MercadoPago, excluding shipping and financing fees.

Total payment volume – Measure of total U.S. dollar sum of all transactions paid for using MercadoPago, including marketplace and non-marketplace transactions.

Enhanced Marketplace - Revenues from the Enhanced Marketplace service, include the final value fees and shipping fees charged to the Company's customers.

Items sold – Measure of the number of items sold/purchased through the Mercado Libre Marketplace.

Items shipped- Measure of the number of items that were shipped through our shipping service.

Local Currency Growth Rates – Refer to FX Neutral definition.

Net income margin – Defined as net income as a percentage of net revenues.

New confirmed registered users – Measure of the number of new users who have registered on the Mercado Libre Marketplace and confirmed their registration.

Operating margin – Defined as income from operations as a percentage of net revenues.

Total confirmed registered users – Measure of the cumulative number of users who have registered on the Mercado Libre Marketplace and confirmed their registration.

Unique Buyers – New or existing buyers with at least one purchase made in the period.

Unique Sellers – New or existing sellers with at least one listing in the period.

Non-GAAP Financial Measures

To supplement our consolidated financial statements presented in accordance with U.S. GAAP, we use foreign exchange ("FX") neutral measures as non-GAAP measure.

This non-GAAP measure should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP and may be different from non-GAAP measures used by other companies. In addition, this non-GAAP measure is not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. This non-GAAP financial measure should only be used to evaluate our results of operations in conjunction with the most comparable U.S. GAAP financial measures.

Reconciliation of this non-GAAP financial measure to the most comparable U.S. GAAP financial measures can be found in the tables included in this quarterly report.

The Company believes that reconciliation of FX neutral measures to the most directly comparable GAAP measure provides investors an overall understanding of our current financial performance and its prospects for the future. Specifically, we believe this non-GAAP measure provide useful information to both management and investors by excluding the foreign currency exchange rate impact that may not be indicative of our core operating results and business outlook.

The FX neutral measures were calculated by using the average monthly exchange rates for each month during 2017 and applying them to the corresponding months in 2018, so as to calculate what our results would have been had exchange rates remained stable from one year to the next. The table below excludes intercompany allocation FX effects. Finally, this measure does not include any other macroeconomic effect such as local currency inflation effects, the impact on impairment calculations or any price adjustment to compensate local currency inflation or devaluations.

The following table sets forth the FX neutral measures related to our reported results of the operations for the three-month period ended June 30, 2018:
