MercadoLibre, Inc. Reports Financial Results for Second Quarter and First Half 2007

- Second Quarter Revenue Increases 53% to Record \$19 Million
- Second Quarter Operating Income Grows 229% to \$4.7 Million
- Net Cash Provided by Operating Activities for First Half Grows 210% to \$5.4 Million

BUENOS AIRES, Argentina, Sept. 14, 2007 (PRIME NEWSWIRE) – MercadoLibre, Inc. (Nasdaq:MELI) (<http://www.mercadolibre.com>), host of the largest online trading platform in Latin America, today reported financial results for its second fiscal quarter and six months ended June 30, 2007.

Marcos Galperin, President and Chief Executive Officer of MercadoLibre, Inc. commented, "We are very pleased with our strong results, driven by robust growth in both our marketplace trading service and online payments solutions. We continue to benefit from the success of our business model, which emphasizes fixed-price as well as auction-based pricing formats, and are optimistic about our long-term growth potential in Latin America, which has one of the world's fastest-growing internet penetration rates."

Financial Results

Second Quarter Results

MercadoLibre reported consolidated net revenues for the three months ended June 30, 2007 of \$18.97 million, representing a quarterly year over year growth rate of 53.2%. Revenue growth was driven primarily by continued growth in confirmed registered users, gross merchandise volume, successful items, and total payment volume, as well as improvements in the monetization of transactions on the Company's platforms. Second quarter marketplace revenues grew 49.1% to \$16.09 million from \$10.79 million for the prior year period. Payments revenues for the same period grew to \$2.89 million for the second quarter, up 81.5% from \$1.59 million during 2006. MercadoLibre's take rate, as measured by revenues as a percentage of gross merchandise volume, improved to 5.5% during the second quarter of 2006 when compared to 5.1% for the same period during 2006.

Gross profit grew 55.2% to \$14.9 million from \$9.6 million in the prior period, representing gross profit margins of 78.5%, primarily due to improved leverage on cost of goods sold that offset the higher rate of growth in the Payments segment, which has lower gross profit margins, as compared to the Marketplace segment.

Income from operations grew 229.1% to \$4.73 million, representing a 24.9% operating margin, up from 11.6% operating margin for the quarter ending June 30, 2006 as the business continues to show significant economies of scale.

Net income for the three month period was \$0.59 million, compared with a loss of \$0.92 million during the same period of 2006.

First Half Results

Revenue for the first six months ended June 30, 2007 increased 51.4% to \$35.43 million compared with \$23.4 million for the first half ended June 30, 2006. Gross profit increased 53.6% to \$27.8 million from \$18.1 million from the prior year period. Income from operations increased 243.9% to \$7.7 million from \$2.2 million for the year-ago period.

Net income for the six month period was \$1.6 million, compared with a loss of \$0.81 million during the same period of 2006.

Net cash provided by operating activities for the six month periods ended June 30, 2007 and 2006 was \$5.39 million and \$1.74 million respectively, representing a year over year growth of 210.1%.

Purchases of property and equipment totaled \$1.94 million for the first half of 2007, an increase of 39.6% from \$1.39 million for the same period one year earlier. As of June 30, 2007 MercadoLibre's cash, cash equivalents, short term investments and long term investments totaled a record \$17.68 million.
