⊥ BUENOS AIRES, Argentina, November 4th, 2020 (GLOBE NEWSWIRE) --MercadoLibre, Inc. (Nasdag: MELI) (http://www.mercadolibre.com), Latin America's leading e-commerce technology company, today reported financial results for the quarter ended September 30, 2020.

Pedro Arnt, Chief Financial Officer of MercadoLibre, Inc., commented, "We are proud to announce MercadoLibre's third quarter results, recording another strong guarter, driven by high demand for e-commerce and fintech services. During these last three months we've begun to consolidate our leadership position both for mid and long tail segments and started to strive for the higher segments of the merchant pyramid. Once again, we want to reinforce our commitment to the democratization of commerce and payments in a region in urgent need. The opportunity ahead of us is sizable, and we feel increasingly confident that we can capitalize on it."

THIRD QUARTER 2020 BUSINESS HIGHLIGHTS

- Unique active users grew 92.2% reaching 76.1 million.
- Gross merchandise volume ("GMV") reached \$5.9 billion, representing an increase of 62.1% in USD and 117.1% on an FX neutral basis.
- Items sold reached 205.7 million, growing 109.9% year-over-year.
- Live listings offered on Mercado Libre's marketplace reached 303.9 million, a 22.3% year-over-year growth.
- Mobile gross merchandise volume grew 283.8% year-over-year on an FX neutral basis, reaching 70.0% of GMV.
- Even through these trying times and challenging increases in managed volumes, Mercado Envios was able to ship 187.6 million items during the quarter without any significant disruptions, representing a 131.1% year-over-year increase.
- Total payment volume ("TPV") through Mercado Pago reached \$14.5 billion, a year-over-year increase of 91.7% in USD and 161.2% on an FX neutral basis. Total payment transactions increased 146.6% year-over-year, totaling 559.7 million transactions for the guarter.
- Off-platform TPV grew 114.3% in USD and 196.5% year-over-year on a FX neutral basis reaching \$8.4 billion in transactions and 416.8 million in payments, a 163.3% year-over-year growth.
- Online Payments had a strong performance, aided by the shift to e-commerce consumption, accelerating sequentially to 204.3% on an FX neutral basis.
- Mobile wallet delivered \$3.2 billion in transactions on a consolidated basis, leading to 380.5% year-over-year growth on an FX neutral basis. Our mobile wallet consumer base grew by 125.2% compared to the third quarter of 2019, reaching 13.7 million unique payers. TPV from mobile wallet in Argentina, Brazil and Mexico continues to grow by triple digits year-over-year.
- Our asset management product, Mercado Fondo already has more than \$540 million under management and over 13.6 million users across Latin America.
- On a consolidated basis MPOS TPV grew 85.0% on an FX neutral basis, accelerating sequentially around 5%, mainly due to higher foot traffic as a consequence of more flexible lockdowns throughout the region. The pace of sales of devices continued to pick up, surpassing the 1.3 million sales in Latin America.

- Net revenues for the third quarter were \$1,115.7 million, a year-over-year increase of 85.0% in USD and 148.5% on an FX neutral basis, mainly attributable to commerce net revenues that continued accelerating and reached the highest historical growth rate.
- Commerce revenues increased 109.3% year-over-year in USD reaching \$724.5 million, while Fintech revenues increased 52.3% year-over-year in USD reaching \$391.2 million.
- Gross profit was \$480.2 million with a margin of 43.0%, compared to 47.2% in the third quarter of 2019.
- Total operating expenses were \$397.1 million, an increase of 8.4% year-over-year in USD. As a
 percentage of revenues, operating expenses were 35.6%, compared to 60.7% during the third
 quarter of 2019.
- Income from operations was \$83.1 million, compared to a loss of \$81.9 million during the third quarter of 2019. As a percentage of revenues, income from operations reached 7.4%.
- Interest income was \$24.6 million, a 13.7% decreased year-over-year, as a result of lower interest rates in our investment as a consequence of the pandemic, mainly offset by higher interest income in Argentina due to higher float.
- The Company incurred \$24.5 million in financial expenses this quarter, mainly attributable to financial loans entered into during the third quarter of 2020, mainly in Brazil and Argentina and interest expenses from our trusts related to the factoring credit card receivables in Argentina.
- This quarter we had a foreign exchange loss of \$30.4 million mainly related to the difference of the Argentina's official exchange rate and the blue chip swap rate at which we effectively carry out stock repurchases in Argentine Pesos. We also believe this presents the added benefit of generating greater transparency around FX rate distortions that arise as a consequence of Argentina's multiple exchange rates.
- Net income before taxes was \$52.7 million, up from a loss of \$66.9 million during the third quarter of 2019.
- Income tax expense was \$37.6 million, a decrease of 52.5% year-over-year, mainly as a result of valuation allowances accounted for on certain deferred tax assets in Mexico and Colombia during the third quarter of 2019. This decrease was offset by: i) higher income tax expense in Argentina as a consequence of the temporary suspension of the knowledge-based economy promotional regime in 2020, which had a direct impact on the income tax rate for our Argentine business, and a higher income tax expense as a consequence of higher pre-tax gain in our Argentine segment in 2020; ii) higher income tax expense in Brazil, as a consequence of higher pre-tax gain in our Brazilian segment during 2020; and iii) higher income tax expense due to withholding tax on dividends.
- Net income was \$15.0 million, resulting in net earnings per share of \$0.28.

NON-GAAP FINANCIAL MEASURES

To supplement our consolidated financial statements presented in accordance with U.S. GAAP, we use foreign exchange ("FX") neutral measures.

This non-GAAP measure should not be considered in isolation or as a substitute for measures of performance prepared in accordance with U.S. GAAP and may be different from non-GAAP measures used by other companies. In addition, this non-GAAP measure is not based on any comprehensive set of accounting rules or principles. Non-GAAP measures have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with U.S. GAAP. This non-GAAP financial measure should only be used to evaluate our results of operations in conjunction with the most comparable U.S. GAAP financial measures.

Reconciliation of this non-GAAP financial measure to the most comparable U.S. GAAP financial measures can be found in the tables included in this quarterly report.

The Company believes that reconciliation of FX neutral measures to the most directly comparable GAAP measure provides investors an overall understanding of our current financial performance and its prospects for the future. Specifically, we believe this non-GAAP measure provide useful information to both management and investors by excluding the foreign currency exchange rate impact that may not be indicative of our core operating results and business outlook.

The FX neutral measures were calculated by using the average monthly exchange rates for each month during 2019 and applying them to the corresponding months in 2020, so as to calculate what our results would have been had exchange rates remained stable from one year to the next. The table below excludes intercompany allocation **FX** effects. Finally, this measure does not include any other macroeconomic effect such as local currency inflation effects, the impact on impairment calculations or any price adjustment to compensate local currency inflation or devaluations.

The following table sets forth the FX neutral measures related to our reported results of the operations for the three months period ended September 30, 2020:
